

Company Profile

ABOUT US

Since our beginning in 1988, when we started with a 30,000 square foot facility in Delphos, Ohio, we have expanded our plant to over 120,000 square feet. In addition, we have acquired two manufacturing facilities located in Bristol, WI and Commerce, CA. These acquisitions enabled us to expand our line to include butter blends, as well as Hispanic desserts and many types and sizes of refrigerated/frozen desserts.

Mission Statement

To build a customer service driven,
quality oriented, employee focused
company.

Lakeview Farms Facilities
